We would call the attention of our renders to the advertisement in another column of the Brooks Sewing Machine Co., of New York; they advertise, what is

indeed a valuable invention, a first-classewing machine for five dollars. JEWELRY. - Wm. Manning has removed his jewelery store to opposite Meadow Valley street. His stock of jewelry is large, and prices reasonable.

ALL desirons of securing lands in Southeastern Nevada should call on H. N. Maguire, at the RECORD office, between this and the 15th of next month.

ANOTHER HOME PROSPECTING EXPEDI- STRAWBERRES are abundant in Pische, from here to prospect the country in and manto Vailey, they are necessarily high west of the Pahranagat range. This, if our friends are determined to take their chances in hunting for new mines, is much more sensible than it would be torn away off into the deserts of Arizona or New Mexico, where they might have to travel hundreds of nailes without crossing a mineral belt. We know that all the western and southwestern sections of Lincoin county are accentifications regions, and that fact gives the enterprise, from the outset, some degree of certainty as to results. There is no better field known in America in which to prospect for silver veins than Southeastwest of the Pahranagat range. This, if priced and are not as fresh as could be prospect for silver veins than Southeast-ern Nevada; and within half a day's ride of P.oche the indications are more promising than those of sections which have attracted prospectors hundreds of miles. Hunt for fortunes, boys, where hundreds

AN EXCITING GAME OF FOOT-BALL. Several hundred men and boys yesterday afternoon thronged Main street, from the RECORD office to Meadow Valley, indulging in an exciting game of foot-ball. In following the never-resting bail porch and house roofs were scaled with great agility. Among the participants, and relishing the sport second to none, was a large Newtondland dog, who showed astonishing sagacity, when the ball was kicked up on an awning, by trying to cet kicked up on an awning, by trying to get it by running up a flight of stairs leading it by running up a light of stars leading to the floor from which the awaing projected. With his forepaws on the overviewing window, when he saw he had been circumvented by a boy who had belumb up from one of the supporting pillars, he looked a very picture of chargrin and disappointment.

A REMEDY PROULTAR TO EASTERN NEvada.-There is a habit prevailing in Eastern Nevada of punching the crown and sides of hats as tull of holes as the lid of a pepper-box, or cutting off the top of the crown entirely. It is said by those who have tried it to be infallible in arresting the falling off of the hair. Some are even so enthusiastic as to believe that it will restore the hair. We know two old chaps who, determined to take the full benefit of a perfect head exposure, discarded their hats entirely for two factory work wars and proceeded in wilsty a creater of the control of would to a pine forest. It seems to be a well proved fact, however, that it is a success in the first stage of depilation.

THE weather persists in being as disagreeable as possible in this part of the world, and yesterday it put at defiance all known rules of season and latitude by indulging in a regular, old-fashioned, blinding show-storm. For fifteen or twenty minutes, between three and four o'clock, the large flakes were sifted down in blinding profusion; but, being con-verted into water almost as soon as they touched the earth, the ground was barely whitened. In the forenous and a creater whitened. In the forenoon and a greater part of the afternoon we had "Oregon mists"—ram, snow and fog intermingled. Old residents, reasoning from former weather experience in Pioche, predict that these storms will be succeeded by intensely warm weather.

RUNAWAY .- A produce wagon belonging to a Utah man was made a wreck yesterday afternoon, down below Boone & Dolman's corral, and its contents of eggs, butter, potatoes, etc., strewn over the ground promiscuously, by the horses attached taking fright and running away. When the driver came to the scene of the wreck he found three wheels and a piece of the bed. The horses were not inbed. The horses were not in They were checked in their destructive course by coming in contact with a cedar tree. After traveling so far over the deserts for a market, it misfortune of peculiar hardship.

A FLOURISHING COURSE OF LECTURES. -Large audiences assemble nightly at Brown's Hall and listen with pleasure to the scientific and valuable knowledge imparted by Professor McDonald's lecimparted by Professor McDonald's lectures upon human nature and phrenology. He is a live talker and never allows his audience to go to sleep. To-night part of his lecture will be devoted to parents and children. Those under twelve years of age admitted free. Several girls and boys will be phrenologically examined in public.

FRIDAY EVEN'G, JUNE 6, 1873

NEARLY A CONFLAGRATION. - In the fastfreight warehouse, about half-past nine Alps-Delinquent June 11; day of sale July 5; o'clock yesterday forenoon, some old sacks, from some cause unknown to us, took fire, and the flames were under dan gerous headway before being noticed. Had it not been that a hydrant was near and an abundance of hose was at hand an extensive conflagration would have been inevitable, for all the houses in that vi-cinity are frame and constructed in con-

BROKE A PANE. - One of the large panes in the window of the stock-broker office of Smith & Co., on Main street, was yes-terday broken by a foot-ball being kicked through it. We would suggest that more enjoyment could be had and less damage would ensue if those engaging in this ifornia and Nevada, and for several years sport would choose some portion of the

COLONEL SUMNER'S LECTURE.-The Courthouse was crowded to its utmost capacity last night to hear Colonel Sum-ner's lecture. The Colonel well sustained his high reputation for oratory and as a literator. The audience frequent y ap-plauded, and were deeply into ested throughout his remarks.

In the rain yesterday a young man coming up Main street overtook a young lady opposite our office. He said to her, "May I have the pleasure of protecting you with my umbrella?" And then she said, with her round expressive eyes said, with her round expressive eyes looking full into his, "Put up your rag." We like to see people sociable.

THE MOTION FOR A NEW TRIAL.-The papers, embracing over four thousand pages, on which the motion for a new trial in the Raymond-Hermes case is based, were filed in the office of the District Clerk yesterday afternoon. We are not informed when the argument on the motion will be heard.

A New WELL .- John Myers, formerly one of the proprietors of the Four-mile wells, is now engaged in sinking for water about five miles north of town, and thinks he will soon strike a good body of

THE cattle grazing in the adjacent valleys have emerged from the winter in good slaughtering condition. Better beef than is exposed in our markets we never saw anywhere.

DELAYED BY WEATHER.-The Salt Lake stage, owing to the bad state of the weather, did not come in until 11 o'clock last night. There was quite a snow fall on the Snake range.

THE GREAT STRIKES.—The recent great strikes in the Meadow Valley and Ray-mond & Ely mines are said to be about the same depth below the surface.

THE revival of the times has called into existence, on Mendow Valley street, a new melodeon or concert hall. SEE what Mike McClusky has to say under the head of "New To-day."

THE HENDERSON. - This is the name of one of the most promising ledges in Pahranagat District. Development is being pushed with all energy, and the mine is improving beyond expectation. Some ore from it was crushed in the Crescent mill with satisfactory result. Pahranagat ledge-owners seem to be sharing the general control of sure in regard to mining eral revival of spirits in regard to mining property.

THE STOCK BREAK.-There was a great tumbling in stocks yesterday, which was the more surprising and unexpected from the fact that it came right on the heels of the greatest developments ever made in our mines. But the Virginia stocks went down in the break from 25 to 30 per cent. below those of Pioche.

ISSUE OF COUNTY BONDS .- The new county bonds are being signed by the proper officials, and will be ready for delivery to county creditors to-day. They were printed on well-executed lithograph plates, and are as neat and attractive in artistic execution as any securities we ever examined.

REFUSED BAIL. - Howard, the colored man who shot and killed Potter, the saloon-keeper, had a preliminary examination in the Justice's Court yesterday, and was refused bail. He was recom-mitted to await the action of the next

BULLION FROM HIKO .- Several bars of fine bullion arrived in the city yesterday from Crescent Mill, at Hiko. The Crescent is now running regularly, does satisfactory work, and the ores are satisfactory, being rich and easily reduced. ARREST OF AN ALLEGED HORSE THIFF.

An alleged horse thief was arrested day before yesterday, four miles below Bullionville, and is now in jail. He will probably have a preliminary examina-tion to-day. We could not learn his MAJOR A. J. BIDWELL, Superintendent

of the Crescent Mill at Hiko, arrived yesterday, and will remain in the city few days on business conneced with that position. THE Dexter Mining Company will have MAIN STREET, OPPOSITE MEADOW
